1. Explained to [REDACTED] that we have requested that O/CI be put on the dissemination for cables from [REDACTED] so that no time might be lost where current intelligence matters were involved. Action copies will still go to O/NE, and O/NE will be expected to inform all IADs other than O/CI when matters are brought up concerning them, and to coordinate with O/CI as appropriate.

2. [REDACTED] called to say that the FBI would be very pleased to accept our questions to be directed to the source of a recent FBI document and that [REDACTED] would be glad to assist in the preparation of these questions as he knows the general capabilities of the sources. I referred this matter to [REDACTED]

3. Requested [REDACTED] to raise the question at the DD/P staff meeting as to whether or not assigning G-2 military duty reservists to O/CI would be considered by DD/P as "too close to L Building". [REDACTED] later reported that DD/P would not approve such assignment except for [REDACTED] has agreed to compartmentalize if he is so assigned next November.
